

# Alerts Popup Widget

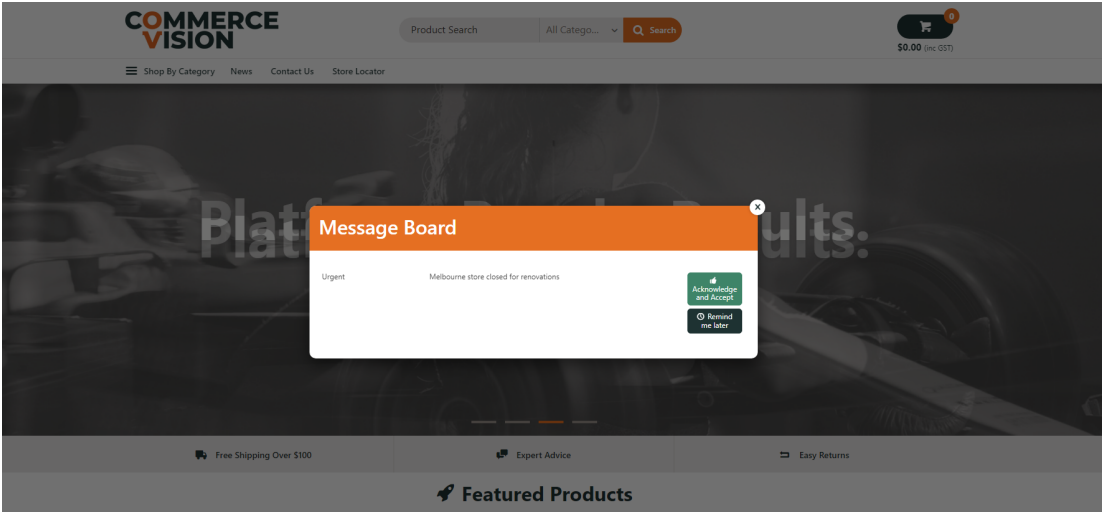

(Formerly known as the Article Alerts Modal widget)

 This widget is used with the [Alerts Popup window](#) feature.

## Widget Use

Displays relevant alerts to the user in a popup on login. Useful for communicating important or time-sensitive information or provide links to documents or other pages on your site. The user can be asked to acknowledge each alert, and can also opt to be reminded later.

## Example of Widget Use

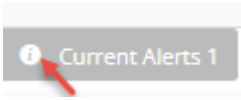

## Where can the Widget be placed?

The widget can be used in the following templates:

- Theme Layout
- Home Page

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use <a href="#">layering</a> to limit widget content to certain groups of users.  To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Modal Header	The heading text at the top of the popup window.	Default: Message Board	3.88

Alerts Button Icon	Icon that displays next to the Alerts reminder button 	Default: cv-ico-general-info2	3.88
Hide Alerts flagged as "Remind me later"?	Determines whether current alerts the user has set for reminder are hidden from view.	Default: enabled Toggle to disable	3.88
Hide Alerts already Acknowledged?	Determines whether current alerts the user has acknowledged are hidden once the button is clicked.	Default: enabled Toggle to disable	3.88
Display Alert Count?	Determines whether to display a counter for the number of alerts set on reminder.	Default: disabled Toggle to enable	3.88
<b>Button Text</b>			
Acknowledge Button Prompt	The text on the Acknowledge button.	Default: Acknowledge and Accept	3.88
Remind Me Later Button Prompt	The text on the Remind Me button.	Default: Remind me later	3.88
Open Document Button Prompt	The text on the Open button when the alert is linked to a document for content display.	Default: Open	3.88
View Button Prompt	The text on the View button when the alert is linked to another page template for content display.	Default: View	3.88
Alerts Button Prompt	The text on the button displayed on the button the user clicks to re-read alerts	Default: Current Alerts	3.88
