Banners

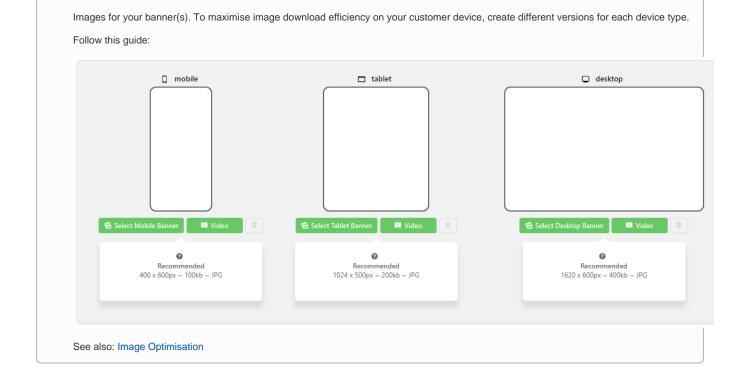

Banners are larger-sized image ads placed on pages or templates. On the Home Page for example, you may want to draw attention to a promotiional campaign, new products, or communicate important changed shipping conditions. A banner can also be a hero image, e.g., to present a visual summary of products on a category page or an overview of a blog or article.

Banners are usually displayed above the fold, in the centre, or may even take up most of the page. A banner is usually an image and can include text and links to other pages on your site or external websites. It can be a single image or a series of images in a slideshow format (also called an image carousel). Adding externally hosted video banners can be implemented with Commerce Vision consultation.

Banners on CV ecommerce

What you'll need before you start

1. Enable and configure Banners

On this page:

- Banners on CV ecommerce

 What you'll need before you start
 - 1. Enable and configure Banners
 - 2. Create a Banner Type
- Upload an Image Banner
- Add a Video BannerRelated Resources

Before you can create and edit banners, the Banners feature must be enabled. Once enabled, **Banner Maintenance** displays as a submenu item in the **Content** menu.

To enable Banners:

🖋 Content	• •	Feature	Available in CMS	Options	
Payment & Checkou	т (18) >	Articles Configure article types and other options.		• Configure

2. Create a Banner Type

A 'banner type' is one or more banners grouped together. Keep in mind that when you add a banner feature to a page or template, a banner type is what is selected.

This step creates a banner type. Maintain Banner Types is accessed on the Banner Settings or the Banners Maintenane page.

1. In the CMS, go to Content Banners .	
Content	 Pages & Templates
<> Advanced Content	> Emails
ரீ Navigation	> Banners

^{2.} Click Add New Banner Type.

3. Enter a unique **Code** and **Name** for the new type, and assign an **Icon** if you wish. 'Name' and 'Icon' display when selecting a banner type for a page.

Banner Type Details	Code *	
Edit banner type information	Demo	
	0 /	
	Name *	
	Banner Slider Demo	
	0 /	
	Icon	
	cv-ico-general-camera	
	Θ /	

- . Onon **Guve**.
- 5. The new banner type displays in the Banner Type Maintenance list. From this page, Edit a banner type.

Upload an Image Banner

- 1. In the CMS, go to Content Banners.
- 2. Click Edit for the banner type.
- 3. Click Add New Banner.

■+ Add New Banner

Example: same image for all devices

```
4. Enter the Banner Details:
```

Description - Short description to identify the image or video Banner Link - The URL, /category, or /product page linked to Banner Link Open in New Window - toggle ON for linked page to open in new window Start Date - (optional) Date banner is visible on your site Expiry Date - (optional) Date banner is automatically removed from your site

a. To upload the same image for all device types, click Select Banner for All Devices. (To upload a different image each device type, go to step 5(b).)

Demo' #+ Add New Banner

13. Repeat Steps 3-11 to add more images if this is a slider banner. You can drag and drop banners to re-sequence them if required.

Add a Video Banner

This option embeds an externally hosted video (Vimeo or YouTube) into the banner area, allowing it to be played on your website.

- 1. In the CMS, go to Content Banners.
- 2. Click Edit for the banner type.
- 3. Click Add New Banner.

■+ Add New Banner

4. Enter the Banner Details:

Description - Short description to identify the image or video Banner Link - The URL, /category, or /product page linked to Banner Link Open in New Window - toggle ON for linked page to open in new window

Start Date - (optional) Date banner is visible on your site Expiry Date - (optional) Date banner is automatically removed from your site

5. Video Upload

To upload one video for all device types, click **Select Video for All Devices**. To upload a different video for each device type, click **Video** for the device type.
