

Section Menu Widget

Widget Use

Renders submenu items of a specific menu item.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- Theme Layout (recommended)
- All Templates

Widget Options

Option	Use	Comments	Available from Version
Description	Short specific description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Section Menu Item Code	Section Menu Item code created in the Menu Editor in the CMS.		All
List Heading	Heading for the section menu, displayed above the menu list.	This will not display on a feature navigation.	All
Heading Link	URL when heading link is clicked.	Assign a link to the heading. By default, this field is empty.	All
Heading Icon	Icon displayed next to the list heading, above the section menu list.	Adds an icon to the list heading.	All
Heading Icon Position	Heading icon placement relative to the heading.	Display icon on the left or right side of heading. Defaults to left if unset and or if section menu is a dropdown menu. Default: Left	All
Show Menu Item Icons?	Show included icons with items in the list?	Default: disabled Toggle to enable	All
Menu Icon Position	Menu icon placement relative to the menu item.	Display icon on the left or right side of the menu items. Defaults to left if unset. Default: Left	All

Is Feature Navigation Menu?	Display menu in a vertical layout instead of the default horizontal layout? NOTE - This option should only be enabled if the menu is a feature navigation menu (e.g., footer content).	Default: disabled Toggle to enable	All
Is Dropdown Menu?	Place all section menu items into a dropdown menu? NOTE - If 'Is Feature Navigation Menu?' option is ON, enabling this option will have no effect.	Default: disabled Toggle to enable	All
Show On Mobile?	Display on a mobile device? If disabled, the section menu will be hidden on mobile devices.	Default: enabled Toggle to disable	All
Show Only Icon On Mobile?	Display icon on mobile devices? If enabled, the prompt text will be hidden on mobile devices.	Default: enabled Toggle to disable	All
Right Align?	Pushes the widget to the right of the zone it is located in.	Default: disabled Toggle to enable	All
