Alerts & Messages Widgets

- Alerts Email List Widget — Renders the list of alerts in the system-generated Alerts email to users.
- Alerts Email Message Widget — Renders the greeting text in the system-generated Alerts email to users.
- Alerts Popup Widget — Displays relevant alerts to the user in a popup on login. Useful for communicating important or time-sensitive information or provide links to documents or other pages on your site. The user can be asked to acknowledge each alert, and can also opt to be reminded later.
- Checkout Messages Widget — Enables any relevant Checkout Message(s) to appear once the user proceeds from the shopping cart to checkout or quote.
- Messages Widget — Displays user messages on various pages within the application.
