Website User Maintenance in CMS

Overview

Your website might target purchasers that are B2C (consumers), B2B (business), or both. Unless your site permits unregistered users to purchase without creating an account (Guest Users), all website users are registered and associated with one default Customer account, and perhaps to additional Customers as well. They will also be assigned one or more Roles. These largely determine what they can view and do on your website.

While B2C users generally self-register on the website, B2B users are often set up by your eCommerce Team (or they may partially self-register and await approval).

NOTE - Some of your staff members will also be registered Website Users, so that they can perform various administrative, account-keeping and customer service tasks.

 Click Add New Accou Customer Details Specify the accounts this user has access to 	Lint. Customer Code A & A Cebinets (AACAB)	Order Limit 100.00	Requisition Limit	Approval Limit 222.00	Options • Budget • Budget

4. Enter Customer Details as follows:

Field	Description
Customer Code	The additional Customer account the user will have access to.
Order Limit	The maximum order value this user can submit on this account (provided their requisition limit is of equal or higher value).
Requisition Limit	The maximum order value this user can request for approval on this account.
Approval Limit	The maximum order value this user can approve on this account.
Budget	(Displays only if User Budgets is active.) See User Budget help.

Add additional Roles for a User

- 1. In the CMS, navigate to Users Website Users.
- 2. Use Search to find the required user and then click Edit.
- 3. Click the Assign Multiple Roles button.

Business To Business User (B2B Default)	

4. If they have multiple roles already, go to the Roles section and click Assign New Role.

🕀 Roles	Role	
Specify the roles assigned to this user	Accounts Team (No Ordering)	
	Purchasing Officer (No Accounts Access)	
	Business To Business User (B2B Default)	
	Assign New Role	

- 5. Select the required role from the dropdown list.
- 6. To save your changes, click Save & Exit.

Approve a B2B User

If Auto Part Registration is enabled, a B2B user who registers for a login on your website will need to be reviewed and approved by the eCommerce Team. Until then, the user is partially registered. This means the user exists in the system but cannot login to your website.

- 1. In the CMS, navigate to Users Website Users.
- 2. User Search to find the user you wish to approve, either by name, email address, or customer code.
- 3. To approve the user without reviewing details, click the Approve User button. This will approve the user and trigger the welcome email to be sent.

Reset a User's Password

The process of resetting a user's password depends on the mode active on your site. You can check the mode by navigating to the **User Accounts** feature: **Settings Feature Management User**, then click **Configure**.

(i) 'Send Password Reset Email' mode:

1. Navigate to Users Website Users. 2. Use Search to find the required user and then click Edit. 3. Hover on the Options button and select Reset Password. Edit User - Jane Smith Options Cancel Save & Exit Save & O Delete 👤 User Details Email Address (or Login Id) * 🕲 Copy jane.smith.cv123@gmail.com 4. In the popup dialog box, click OK to confirm the request. cmsprod.commercevision.biz says Are you sure you want to reset this users password? OK Cancel 5. If the request is successful, a popup confirmation message will display to inform you that a password reset email has been sent.

(ii) 'Enter Password' mode:

- 1. Navigate to Users Website Users.
- 2. Use Search to find the required user and then click Edit.
- 3. In the Change Password and Confirm Change Password fields, enter and re-enter the new password.
- 4. To save the changes, click Save & Exit.

Delete a User's Account

An Administrator can remove a user's account. If the user has active orders, the user cannot be deleted.

- 1. Go to E-Commece Users Website Users.
- 2. Use Search to find the user and click Delete.
