Available Quantity Calculation

The Customer Self Service eCommerce Platform has the ability to change the Available Quantity Calculation to be the same as your ERP System.

Step-by-step guide

To set-up the availability calculation method

- Log in as an Administrator.
 Navigate to 'Settings'.
- 3. Click the 'Orders' tab.
- 4. In the 'Current Order Display' tab, you will see 'Available Qty. Calculation'.
- 5. You then can pick the Quantity Calculation to be the same as in your ERP System.

(i)	Abbreviations Used
	QOH = Qty on Hand
	CO = Current Orders
	BO = Back Orders
	FCT = Factory Orders
	FO = Forward Orders
