Product Features Group Maintenance

Expanding on the functionality of the Product List Filter widget that filters products within the same category, the Product Features Group custom widget enables your customers to run filtered, multi-category searches.

Step-by-step guide

- 1. Commerce Vision can supply a custom widget tailored to your requirements. 2. We will use a simplistic example to highlight the effectiveness of this feature: the Perfect Paper Finder custom widget. In the CMS, navigate to Settings Feature Management. З. Under 'Products & Categories', click Configure next to Product Features. 4. **Feature Management** Q Search for a feature... Content 10 > Feature Options Payment & Checkout 16 > Cluster LineType Maintenance Maintain Cluster neType information online. **Products & Categories** 12 > Cost Centres Configure Cost Centre options for your website. System 7 > **Custom Catalogues** Create web-based catalogues for specific customers. 👤 User > 6 Integrated Category Maintenance Integrate your category structure from PRONTO, but maintain additional category content online (such as images). Advanced 2 > Most Popular Products Enable Most Popular Products functionality (in conjunction with Baynote). Online Category Maintenance Configure Maintain all category information online (e.g. category structure as well as additional content). Product Documents Configure Maintain product docume Product Features Configure Configure product feature options. Product Maintenance Configure Maintain product information online, such as ribbons, alternates, accessories, and notes, for example. Product Media Configure Maintain product media online, such as video and images. Product Variants Configure Configure product variant options. **Ouick View** Configure Enable Quick View functionality using the Product Category Product Summary widget.
 - 5. Create the Product Feature Group by clicking on Add Group and typing in a name.

6. Click Save and Exit.

- 7. Navigate to Products & Categories Product Features.
- 8. Click Add New Feature.

9. Type in a Feature Name and toggle to ON any metadata features. Refer to Product Feature Visibility for more information on these options.

10. The important one for the Product Feature Group functionality is the Has a Group? option. Toggle ON.

11. Select the relevant product feature group that you created earlier.
