

# Cart Quote Button Widget

## Widget Use

Places the 'Request Quote' button in the shopping cart. This submits the order as a quote, rather than proceeding through checkout and completing payment.

## Example of Widget Use

Following is an example of the widget in use:

## Where can the Widget be placed?

The widget can be used in the following templates:

- Cart Template
- Checkout Template
- Checkout Quote Template
- Guest Checkout Template
- PayPal Express Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.  This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed.  The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Button Prompt	The text displayed on the button.	Default: Request Quote	All
Button Icon	The icon displayed to the left of the button text.	Default: cv-ico-general-paperplane Select via drop-down	All
Right Align?	Pushes the widget to the right of the zone it is located in.	Default: ON Toggle to disable	All
