Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- Cart Template
- Checkout Template
- Checkout Quote Template
- Guest Checkout Template
- PayPal Express Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Heading	The text displayed at the top of the Checkout Message popup window.	Default: Important Information	All
Return To Cart Button Label	The text displayed on the Return To Cart button.	Default: Return To Cart	All

Proceed To Checkout Button Label	The text displayed on the Proceed To Checkout button.	Default: Proceed To Checkout	All
Number Of Messages Per Page	The number of checkout messages to display at any one time per page.	Default: 3	All
Showing Prompt	The text associated with the number of messages currently being displayed.	Default: Showing	All
Number Of Page Links	The maximum number of page numbers to display at any one time.	Default: 3	All
Show Next / Previous?	Determines whether the Next and Previous page links are shown.	Default: on Toggle to disable	All
Show First / Last?	Determines whether the First and Last page links are shown.	Default: on Toggle to disable	All
Show Next / Previous Skip?	Determines whether to show a skip/jump link when the total number of pages exceeds the Number of Page Links shown.	The skip link allows the user to jump up or down in multiples of the number of pages specified in the 'Number Of Page Links' setting.	All
Confirmation Prompt Single	The prompt text displayed when there is only one message visible and it requires confirmation from the user.	Default: I confirm I have read this message	All
Confirmation Prompt Multiple	The prompt text displayed when there are multiple messages visible and at least one requires confirmation from the user.	Default: I confirm I have read all messages	All
