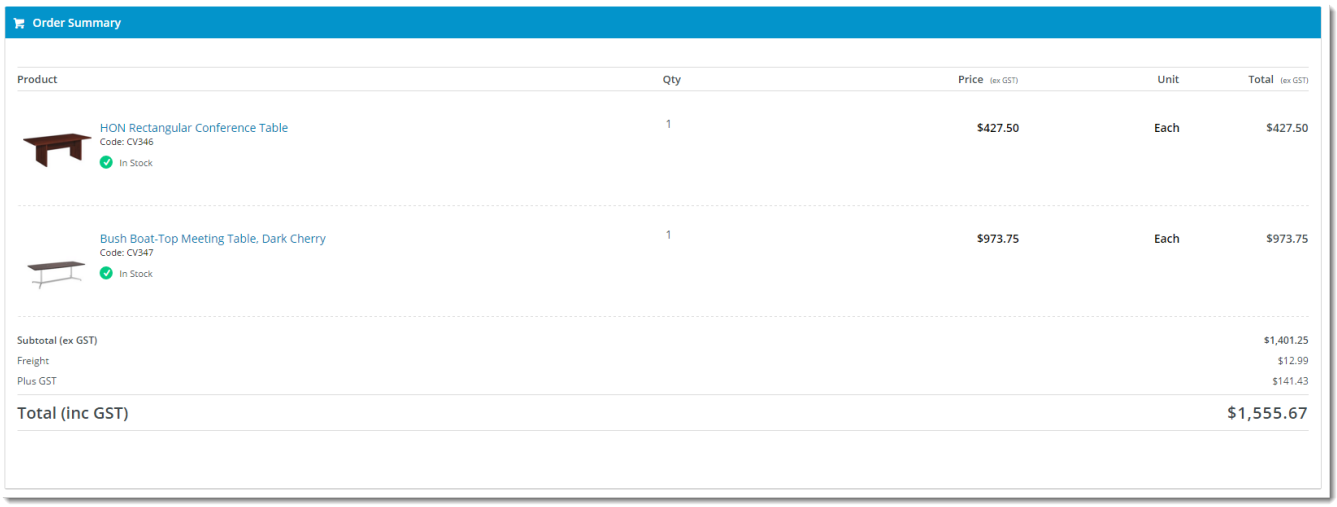
Order Summary And Lines Static Widget

Widget Use

Renders the order summary and lines in static scenarios such as the order confirmation page.

Example of Widget Use

Following is an example of the widget in use:



Where can the Widget be placed?

The widget can be used in the following templates:

- Order Confirmation Page Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommended this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for on	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Show Image?	Determines whether the product image is included in the summary.	Default is: ticked Untick to disable	All
Place Holder Image	The file path & name for the product placeholder image.	Default is: /Themes/BPDTHEME01/theme-client-updates/img/placeholder /product-image.png	All
Use Hyperlink on Image?	Determines whether the product image is hyperlinked back to the product's detail page.	Default is: ticked Untick to disable	All
Show Unit Description?	Determines whether the unit of issue column is included in the summary.	Default is: ticked Untick to disable	All

Unit Description Prompt	The heading for the unit of issue column.	Default is: Unit	All
Show Discount?	Determines whether the discount column is included in the summary.	Default is: ticked Untick to disable	All
Discount Prompt	The heading for the discount column.	Default is: Discount	All
Show GST?	Determines whether the tax column is included in the summary.	Default is: ticked Untick to disable	All
Itemise Charges?	Determines whether various charges are broken down into their various components, instead of being grouped as 'Charges'.	Default is: unticked Tick to enable	3.95
Titles			
Heading	The heading text displayed at the top of the widget.	Default is: Order Summary	All
Heading Icon	The icon displayed to the left of the heading text.	Default is: cv-ico-general-cart ico-heading Select via drop-down	All
Prompts			
Unit Description Prompt	The label for the unit of issue column.	Default is: Unit	
Discount prompt	The discount label.	Default is: Discount	
GST Prompt	The heading for the tax column.	Default is: GST	All
Subtotal Prompt	The label for the order subtotal display.	Default is: Subtotal	All
Charges Prompt	The label for the charges display (to show minimum order charges, for example).	Default is: Charges	All
Freight Prompt	The label for the freight charges display.	Default is: Freight	All
Discounts Prompt	The label for the discount display (to show promotional discounts, for example).	Default is: Discounts	All
Including GST Prompt (inc tax)	The tax prompt shown for inc-GST customers (e.g. B2C).	Default is: Including GST	All
Including GST Prompt (ex tax)	The tax prompt shown for ex-GST customers (e.g. B2B).	Default is: Plus GST	All

Other Widgets

- Order Payment Links Form Widget — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- Magic Link Authentication Message Widget — Renders the Magic Link authentication message.
- CUSTOM_Side by Side Content Tiles Widget — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- Stock Dialog Widget — Displays the Stock to Receive Detail dialog window.
- Stock to Receive Widget — Displays the Stock to Receive page.
- Stock Levels Widget — Displays Stock Levels page.
- Order Declined Pending 3rd Party Installment Msg Widget — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- Order Field Static Widget — Renders an additional order field in email templates.
- Online Quote Validation Widget — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- Header Level Cost Centre Widget — Renders the cost centre input field on the order header in the shopping cart.
- Openpay Summary Widget — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the Product Purchase Details widget if you want to customise tagline placement on the template.
- Order Line Availability - Click and Collect Widget — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- Account Activation Email Content Widget — Renders the message content in the Invitation to Register an Account email.
- Order Template Cost Centre Widget — Renders the cost centre input field on each product line in an order template.

- BPAY Account Payment Detail Widget — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
