

Product Rating Widget

Widget Use

Displays a product's current star rating, along with links for the user to read and write reviews. **Please Note** - this widget should be implemented in conjunction with the [Product Reviews widget](#).

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Show Heading?	Determines whether heading / title text is displayed at the top of the widget.	<p>Default: enabled</p> <p>Toggle to disable</p>	All
Show Read Reviews Button?	Determines whether a button is displayed which links to current reviews of the product. On click, the user is scrolled to the published reviews (which are displayed via the Product Reviews widget).	<p>Default: enabled</p> <p>Toggle to disable</p> <p>Note - if this option is enabled, you must ensure the Product Reviews widget is also enabled on the Product Detail page template.</p>	All
Include Child Reviews On Master Products?	Determines whether reviews of Child products will be included in the Master product page.	<p>Default: disabled</p> <p>Toggle to enable</p>	<p>4.31</p> <p>Actual: 4.27</p>
Titles			
Heading Text	The heading text displayed (where heading has been enabled).	Default is:Rating	All
Buttons			
Read Reviews Button Text	The text on the Read Reviews button. This is normally appended with the number of current reviews of the product.	<p>Default is: Read Reviews ({0})</p> <p>Note - {0} is a place holder for the current number of reviews</p>	All
Read Reviews Button Icon	The icon displayed to the left of the Read Reviews button text.	Default is: cv-ico-general-newspaper	All
Write Review Button Text	The text on the Write Review button.	Default is: Write A Review	All
Write Reviews Button Icon	The icon displayed to the left of the Write Review button text.	Default is: cv-ico-general-pencil	All

Implementation Guide

- [Product Reviews](#)

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
