

Product Rating Widget

Widget Use

Displays a product's current star rating, along with links for the user to read and write reviews. **Please Note** - this widget should be implemented in conjunction with the [Product Reviews widget](#).

Example of Widget Use

Following is an example of the widget in use:

The screenshot shows a product page for 'Push Pins, Silver, 100 Box'. At the top, there is a navigation bar with links: Product Categories, Home, Customer Service, About Us, and My Account. Below the navigation, the product title 'Push Pins, Silver, 100 Box' is displayed, followed by the product code 'CV295'. On the left, there is a large image of three silver push pins. To the right of the image, the price is listed as '\$3.95 inc GST'. Below the price, there is a quantity selector set to '1' and an 'Add to cart' button. Underneath, it says 'Qty in cart: 0'. The 'Rating' section shows five stars, indicating a 5-star rating. Below the stars, there are two buttons: 'Read Reviews (1)' and 'Write A Review'. A red arrow points to the 'Write A Review' button.

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Show Heading?	Determines whether heading / title text is displayed at the top of the widget.	Default: enabled Toggle to disable	All
Show Read Reviews Button?	Determines whether a button is displayed which links to current reviews of the product. On click, the user is scrolled to the published reviews (which are displayed via the Product Reviews widget).	Default: enabled Toggle to disable Note - if this option is enabled, you must ensure the Product Reviews widget is also enabled on the Product Detail page template.	All
Include Child Reviews On Master Products?	Determines whether reviews of Child products will be included in the Master product page.	Default: disabled Toggle to enable	4.31 Actual: 4.27
Titles			
Heading Text	The heading text displayed (where heading has been enabled).	Default is:Rating	All
Buttons			
Read Reviews Button Text	The text on the Read Reviews button. This is normally appended with the number of current reviews of the product.	Default is: Read Reviews ({0}) Note - {0} is a place holder for the current number of reviews	All
Read Reviews Button Icon	The icon displayed to the left of the Read Reviews button text.	Default is: cv-ico-general-newspaper	All
Write Review Button Text	The text on the Write Review button.	Default is: Write A Review	All
Write Reviews Button Icon	The icon displayed to the left of the Write Review button text.	Default is: cv-ico-general-pencil	All

Implementation Guide

- [Product Reviews](#)

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
