

# Store Availability Locator Widget

## Widget Use

Displays the 'My Store' locator widget for sites where product availability or pickup location is enabled based on a user's selected store. The user enters a postcode or suburb and selects a store from the results returned.

## Example of Widget Use

Following is an example of the widget in use:

## Where can the Widget be placed?

The widget can be used in the following templates:

- Theme Layout Template
- Cart Template

| Description                    | A short description of the widget's use.                                                                                                                                                                                                                                                                                                                                               | We recommend this field be updated so the widget's purpose is clear at a glance from the template page.                                                                                                                                                                                                                                                                                                                | All  |
| Layer                          | The layer the widget is valid for.                                                                                                                                                                                                                                                                                                                                                     | <p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p> | All  |
| Select Display Location        | <p>Determines where in the layout the widget should render:</p> <ul style="list-style-type: none"> <li>If the widget is being placed in Theme Layout Template for display on the Home Page, the display location should be 'Top Bar of All Pages'.</li> <li>If the widget is being placed in the Cart Template, the display location should be 'Page Content of Cart Page'.</li> </ul> | Default: Top Bar of All Pages                                                                                                                                                                                                                                                                                                                                                                                          | 3.81 |
| Store Details Json Field Group | Specifies the JSON field group used to determine which fields are shown for each store in the search results.                                                                                                                                                                                                                                                                          | Default: store-location-availability                                                                                                                                                                                                                                                                                                                                                                                   | 3.81 |
| Max Number of Search Results   | The maximum number of store locations returned based on the user's postcode/suburb input.                                                                                                                                                                                                                                                                                              | Default: 3                                                                                                                                                                                                                                                                                                                                                                                                             | 3.81 |
| Current Store Prompt           | The prompt text displayed for the user's currently selected store.                                                                                                                                                                                                                                                                                                                     | Default: My Store                                                                                                                                                                                                                                                                                                                                                                                                      | 3.81 |
| When No Store Set Text         | The text displayed when the user has not yet set a store.                                                                                                                                                                                                                                                                                                                              | Default: Please select your store                                                                                                                                                                                                                                                                                                                                                                                      | 3.81 |
| Change Store Text              | The link text for expanding the Store Locator input field.                                                                                                                                                                                                                                                                                                                             | Default: Change Store                                                                                                                                                                                                                                                                                                                                                                                                  | 3.81 |
| Change Store Instructions      | The instruction text displayed above the postcode /suburb input box.                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                        | 3.81 |
| Search Box Placeholder         | The placeholder text displayed inside the postcode /suburb input box.                                                                                                                                                                                                                                                                                                                  | Default: Enter suburb or postcode                                                                                                                                                                                                                                                                                                                                                                                      | 3.81 |
| Search Button Text             | The text displayed on the search button.                                                                                                                                                                                                                                                                                                                                               | Default: Find my nearest store                                                                                                                                                                                                                                                                                                                                                                                         | 3.81 |
| Set Store Button Text          | The text displayed on the button next to each store location in the result set (except for the user's currently selected store).                                                                                                                                                                                                                                                       | Default: Set Location                                                                                                                                                                                                                                                                                                                                                                                                  | 3.81 |
| Current Store Button Text      | The text displayed on the button next to the user's currently selected store in the result set.                                                                                                                                                                                                                                                                                        | Default: My Store                                                                                                                                                                                                                                                                                                                                                                                                      | 3.81 |

## Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM\\_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.

- **Online Quote Validation Widget** — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- **Header Level Cost Centre Widget** — Renders the cost centre input field on the order header in the shopping cart.
- **Openpay Summary Widget** — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the **Product Purchase Details widget** if you want to customise tagline placement on the template.
- **Order Line Availability - Click and Collect Widget** — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- **Account Activation Email Content Widget** — Renders the message content in the Invitation to Register an Account email.
- **Order Template Cost Centre Widget** — Renders the cost centre input field on each product line in an order template.
- **BPAY Account Payment Detail Widget** — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
