# Support for the IPSI Payment Gateway

The CMS now includes configuration options and backend support for the IPSI payment provider. If you have an IPSI merchant account, you can enter sandbox and production credentials to begin processing payments via the IPSI gateway.

In the CMS, simply navigate to **Settings Feature Management**.

Under the **Payment & Checkout** tab, locate the '**Payment Provider**' feature and click **Configure**.

Then just enter your IPSI account information and save.
