## **Free Freight Promotions - Classic sites**

## Overview

Free Freight promotions can be configured which entitle users to \$0 shipping costs on eligible orders.

Conditions can be set so that a minimum order value must be reached, or the promotion can apply to any value order. The promotion can be unlimited, or can be granted to the first 25 users only, for example.

In the screenshots below, a Free Freight promotion will be configured for orders over \$50, with the code 'FREEFREIGHT50'. There will be no usage restrictions.

(1) Ster	This guide refers to functionality available in versions 3.49.00 and later. Prior to creating Promotion Codes, Administrators must ensure the relevant System and Role settings have been configured. See Promotion Codes Overview - Classic sites for information on these settings.
To Co	onfigure a Free Freight Promotion:
	<ol> <li>Login as an Administrator.</li> <li>Navigate to 'Promotion Codes' or 'Promotion Code Maintenance'(/PromotionCodeMaintenance.aspx).</li> <li>Click the 'New Promotion Code' button.</li> <li>Select 'Free Freight Discount' from the drop-down list and click 'Next'.         Create New Promotion         Promotion Type : Free Freight Discount          Cancel Next         </li> <li>Populate the fields as follows:         <ul> <li>Promotion Code - unique code users will enter at checkout to redeem the offer.</li> </ul> </li> </ol>
	<ul> <li>Description - short description; this is displayed to the user once the code is applied to the order.</li> <li>Start Date - date the promotion code becomes valid.</li> <li>End Date - date the promotion code expires.</li> <li>Status: <ul> <li>Active - the promotion code can be used.</li> <li>Complete - the Promotion code from being used.</li> <li>Disabled - prevents the promotion code from being used.</li> <li>Mode* - sets the user audience: B2B, B2C, or Both. (*Note: It's recommended that a promotion be configured for either B2C or B2B - not both, for the purposes of GST-calculation and display.)</li> <li>Carrier Code - the freight carrier to be used for the promotion.</li> <li>Not applicable with other offers - when ticked, prevents the code from being used on orders where other promotion codes are applied.</li> <li>When criteria fails remove promo code - when ticked, ensures the promotion code is removed from changed orders which no longer applies message - (not currently functional) message displayed to the user when a changed order fails to meet the promotion criteria. Leave blank to use the system default.</li> </ul> </li> </ul>

Create New P	. Leave Dialik to use the system delautt.
