Select Credit Card Payment Provider

0	This feature must first be swi	tched on for your site by Commerce Vision.				
	Braintree Payment credit card s If your site uses Braintree Paym provider selected here will not b	Braintree Payment credit card settings are not configured on this page. See: Braintree Credit Card Settings If your site uses Braintree Payments and it has been enabled to display Braintree only for processing credit card transactions, the payment provider selected here will not be available to customers during checkout.				
	Provider Selection Specify the provider to use	• Your site is using Braintree so it may be configured to only show the Braintree payment options.				

Payment Provider lets you select the credit card processing provider for your website. Except Braintree Payments, all providers integrated to the Commerce Vision platform are listed. If your site uses a current Eway gateway method, you can also enter the API keys and configure settings here.

- Get Eway API Keys
- Configure Eway settings

This setting replaces the Card Payment Provider selection located in Settings while logged into your website.

The deprecated Card Payment Provider setting is located in Settings Orders Credit Cards. Do not use this setting.
